

Starshaped - 1/1

Interprété par Blur.

wash with new soap behind the collar
keeps a clean mental state
don't usually bother in cold weather
but still i'm getting into work late
and i don't need the practise

(chorus)

i've been making plans (for the future)
become an unconcious man (all for the good)
feel so unnecessary (we don't think so, you seem starshaped)

i have a couple at the weekend
helps keep up comaraderie
and my mind boggles in the muddle
at the possibilities
and i don't need any practise

(chorus)

wash with new soap behind the collar
helps keep down the laundry
and now i bother in cold weather
because it cleans me mentally
