

## Oily water - 1/1

### Interprété par Blur.

lead in me and me in water  
dangling in my word  
i swallowed too much oily water  
it keeps slipping down my spine

in a sense of self decline  
growing fat on sound  
it's only an early morning dream  
and the whole world will be alright

chorus

my head is full of suspicion  
i'm coming home sometime  
i've swallowed too much oily water  
it keeps slipping down my spine

in a sense of self in decline  
lying on my back  
it's only an early morning dream  
and so the whole world will be alright

chorus
