

# Come together - 1/1

**Interprété par Blur.**

I don't understand  
You're walking over me  
All over me, to you  
Well you must be mad  
And you know you are  
You should have known  
I'd do anything for you

(chorus)  
So why, why  
Can't we come together? why

Inside my head  
It's all been taken out  
By you and do I care  
Well you know I do  
You should have known  
I'd do anything for you

(repeat chorus)

Now it's all been said  
And you know it all  
Then you should have known  
I'd do anything for you  
For you

(repeat chorus)
