

Cloud in the sky - 1/1

vTake my vision away
Take the words that I say
Take yourself from me
Can't take what I believe
There's a cloud in the sky
But I ain't gonna cry
Take the sun from my eyes
I feel the warm further rise
Feel the warm further rise X5
Let the rain fall down
'Cause I ain't gonna drown
Scratch my face to the sand
I'm a determined woman
There's a cloud in the sky
But I ain't gonna cry
Take the sun from my eyes
I feel the warm further rise
Feel the warm further rise X5
