

## All in the name of pity - 1/1

Interprété par Skunk Anansie.

I smoked the shit that made you love  
Drowned all your problems like a wife  
Blanked out your anger with my face  
Wasted my days to hide disgrace  
I did it all, did it all, all in the name of pity  
You loved to taunt me with your sex  
Kicked up the memory in my head  
Watch my neurosis building up  
Swallowed the truth your mind forgot  
You did it all, did it all, all in the name of pity  
You tried to drag me in again  
Spinning your lies and your suffering  
Took all your thoughts and turned them sane  
(so) You could believe you're not to blame  
You did it all, did it all, all in the name of pity  
Why  
Why  
Why  
Why  
Why  
Why  
Why  
Why  
You tried and tried to use my life  
To keep your aggression trivialized  
Never an ego in control  
(but) Now who's the shit that sold his soul
