

She's your cocaine - 1/1

Interprété par Tori Amos.

She's your cocaine
She's got you shaving your legs
You can suck anything
But you know you wanna be me
Put on your make-up boy
You're your favourite stanger
And we all like to watch
So shimmy once and do it again
Bring your sister if you can't handle it
She says control it
Then she says don't control it
Then she says you're controlling
The way she makes you crawl
She's your cocaine your Exodus laughing
And she knows what you are
So shimmy once and do it again
Bring your sister
Bring your sister if you can't handle it
If you want me to
Boy I could lie to you
You don't need one of these
To let me inside of you
And is it true that devils end up like you
Something safe for the picture frame
And is it true that devils end up like you
So tied up you don't know how she came
She's your cocaine
She's got your shaving your legs
She got you liking mine back
Got taking it in
Getting mine back
Lasting mine back
I'm taking my easel
And I'm writing good checks
You sign Prince of Darkness
Try squire or dimness
Please don't help me with this
