

Who's loving my baby - 1/1

Interprété par Shola Ama.

Who's loving my baby
And taking care of you
I need to know right now
Do You still care for me
Who's loving my baby
And taking care of you
I need to know right now
Do you still care for me
I may be young but I was ready
To fall in love with you once again
You tore my heart apart
Right from the very start
I didn't know what to do, baby
Gave you my heart, my soul, my time
But I guess
It wasn't good enough for you
I just don't understand how I could lose my man
Somebody tell me
All I wanna know is, baby -
(Repeat and fade with following)
Who's loving my baby
I need to know, I got to know
I need to know right now, baby
Do you still care, yeah
What am I gonna do
I need to know right now
I got to know right now
