

Never too late - 1/1

Interprété par All Saints.

I knew that you'll be no good for me
but I took the chance forever lasting loving tender,
but now you're making life so hard for me to move along,
coz you knew my love was the best that you ever had.

(Wanna move along) I want the chance to get you out my head,
(Can't take the move) whats done is done there's no more to be said,
(Oh pitiful) but now I'm moving along without you,
(No time to waste) the rules of love I must learn before I start again.

Its never too late, its never too late, no,
its never too late to learn, you'll never know
Its never too late, its never too late, no,
its never too late to learn.
its never too late to learn.

Among the world to become my reality,
I'm gonna make just fine,
this time I'm gonna be strong and I'll do it right,
no more relationships to send me out of my head,
I'm gonna stay away, oh, oh, yeah,
its easier.

(Don't wanna be afraid) Don't need your friendship, don't need your love,
(I'm on the mood) I'm moving on living without you,
(Its time to change) The rules of love I must learn before,
The rules of love I must learn before I start again.

Never too late to learn, you'll never know
Its never too late, its never too late, no,
its never too late to learn.
Its never too late, its never too late, no,
its never too late to learn, you'll never know,
Its never too late, its never too late, no,
its never too late to learn.

Its never too late, its never too late, no,
its never too late to learn, you'll never know,
Its never too late, its never too late, no,
its never too late to learn. x 3

Its never too late, its never too late, no,
its never too late to learn, you'll never know,
Its never too late, its never too late, no,
its never too late to learn, you'll never know.
