Interprété par All Saints.

C'mon now, now
Oooooooooooooohhhhh
Started, hey

Hey what's up..gather round
Everybody get down
It's time for the best party track in town
Kicking it live..keeping it real
Vibin' on time..yeah you know how we feel
Ya gotta get up and move side to side
Ya gotta release and do it right
It's a funkadelic beat to a funkadelic song
Still kicking it live with the main man Jon
Saints in da house..you're doing it right
Cold rock a jam and party all night
So let's get started baby you and I
Go on with your bad self..dance all night
So can you feel it..I can feel it hey
Can you feel the beat
Feel the bass drum boomin' in your feet
Hear the snear drum tapping in your ear
You've gotta get up..gotta move your rear

That's the way this heart is a feelin for you
Coz no one does it better
Boy there ain't no doubt just what I wanna do
So won't you let me sweat ya

Let's get started..if you wanna party
Baby it's just you and me..I got what you need
Don't conceal it..tell me can you feel it
Won't you let me lead the way
Coz I wanna be your baby for life.....

Oooooooooooooohhhhh

To the break and break of dawn
As the bass drum stick it to your ear
Can you hear..move your rear
Whine your body to the beautiful snear
Guys grab a girl and take her from the back
Give it up..give it up..coz we like it like that
Or girls grabe a guy, showing that you ain't feeling shy
Keep it going as the bridge comes back in time

It feels right..we could be..start it off up
You and me..get it on..what I need..
