

We Belong To The Sea - 1/1

Interprété par Aqua.

Take me to the ocean blue
Let me dive right into
Anything I'll ever capture
You can wait up all night waiting for wrong or right
I always knew where I had you

You can lie on my waves you can sleep in my caves

Living on the edge of peace knowing that water can freeze
Do you still want me to open

Come on into my waves you can sleep in my caves
Let me know that you will hold me - till the tides take my soul

We belong to the sea - to the waves you and me - living in the ocean so blue
We belong to the sea - open wide being free - a minute everlasting with you

And as soon as it stop's we will all be a drop
Coming down on your wide open sea

Can you wash me away will you dry me one day
Take me to the place were I came from
If I had a open heart would you tear that apart
Why do I feel that you're lonesome

You can lie on my waves you can sleep in my caves
Let me know that you will hold me - till the tides take my soul

We belong to the sea - to the waves you and me - living in the ocean so blue
We belong to the sea open wide being free- a minute everlasting with you

And as soon as it stop's we will all be a drop
Coming down on your wide open sea

Theirs a thunder inside me - that your silence will kill
And I know that you forced me to get rid of what I feel

We belong to the sea - to the waves you and me - living in the ocean so blue
We belong to the sea open wide being free- a minute everlasting with you
And as soon as it stop's we will all be a drop
Coming down on your wide open sea
