

# Heart Of The Brave - 1/1

**Interprété par Freedom Call.**

Born in a nation  
A young generation  
Is praying for salvation  
Out of damnation

When the power's rising  
Light fades the shadows away

Far beyond the gates of time  
A revolution's calling  
The power of freedom so divine  
Saves us all from falling down

Voices from an ancient time  
A prayer for the dying  
A call for rebellion in the night  
The lost souls are crying

Take my hand and fly away across the endless skies  
Heal my soul, light my heart  
The time will wash my sins away  
I'll bury all the lies

Take the power and fight for the brave  
And the power of freedom remains

I'm riding across the endless skies  
And I am watching the spirits flying  
The time has come to fight  
Brave at heart I'm dying

Take my hand and fly away across the endless skies  
Heal my soul, light my heart  
I'll find the way to paradise  
I'll bury all the lies

Chorus

Praise the lord of the glorious land  
Time for me to understand  
I believe in the sign he sent  
Fame and glory I defend
