

## Never Make A Promise - 1/1

Interprété par Dru Hill.

I don't have to think about it  
I ain't never been in love  
Well I've only dreamed about it  
But now I think I know it's clear to me  
You've made me understand  
I promise I'll never hurt  
you/ I'll never make you cry  
I promise I'll never hit you  
Cross my heart and hope to die  
I know I'll keep you safe, I'll keep you warm  
I'll keep you satisfied  
Be your sunshine in the morning  
Be your everything at night

-Chorus-

You told me what you needed  
I gave you what you need  
I told ya that I'd love you, make it good for you and me  
I never make a promise that I can't keep, that ain't me

Ain't no way to get around it  
No cause now you're stuck with me  
Did you know that yo'd be surrounded  
By my love and ecstasy  
This is the start of one great love affair  
That never, never, never ends  
We can share the world together  
This is where it begins  
Girl, I'll stand by you, Give me your hand  
I'll make love to you baby, Your wish is my command  
Let play out your fantasies I'll make you u lose your mind  
Take you places you ain't been, I promise you in time

-Repeat Chorus-
