

## Love Somebody - 1/2

**Interprété par Robbie Williams.**

Always and forever is forever young  
Your shadow on the pavement  
The dark side of the sun  
Gotta dream the dream all over  
And sleep it tight  
You don't wanna sing the blues  
In black and white

And it's hope that springs eternal for everyone  
If it ain't broke then break it  
Oh the damage done

Try and love somebody  
Just wanna love somebody right now  
There's just no pleasing me  
Try and love somebody  
Just wanna love somebody right now  
Lady lay your love on me

Violet in the rainbow just melts away  
There's not enough minutes in an hour  
Or hours in the day  
A song played in a circle that never skips a beat  
A stranger in a country that I have yet to meet  
And let's hope that springs eternal for everyone  
Your lifetime is a second  
All the damage done

Trying to love somebody  
Just wanna love somebody right now  
Guess there's just no pleasing me  
Just wanna love somebody  
Just wanna love somebody right now  
Lady lay your love on me

It'll come in your sweet time Lord  
I've just got to let you in  
The blind leading the blind Lord  
Getting underneath your skin  
I can feel you in the silence  
Saying let forever be  
Love and only love, will set you free

I wanna love somebody  
Wanna love somebody right now  
There's just no pleasing me  
I wanna love somebody

## Love Somebody - 2/2

Just wanna love somebody right now  
Lady, lay your love on me

It'll come in your sweet time, Lord  
I've just got to let you in  
The blind leading the blind Lord  
Getting underneath your skin  
I can feel you in the silence  
Saying let forever be  
Love and only love, will set you free
