

Stars - 1/1

Interprété par Cranberries.

The Stars are bright tonight
And I am walking nowhere

Guess I will be alright
Desire gets you nowhere

And you are always right
I thought you were so perfect

Take you as you were
Have you as you were
Take you as you were

I love you just the way you are
I love you just the way you are
I'll take you just the way you are
Does anybody love the way you are?
Aaa Aaa Aaa

The Stars are bright tonight
A distance is between us
And I will be OK
The worst I've ever seen us

And still I have my weaknesses
And still I have my strength
And still I have my ugliness

But I, I, I
I love you just the way you are
I love you just the way you are
I'll take you just the way you are
Does anybody love the way you are?

Aaaa Aaaa Aaaa Aaaa Aaaaa

I love you just the way you are
I love you just the way you are
I'll take you just the way you are
Does anybody love the way you are?

Aaaa Aaaa Aaaa Aaaa Aaaa Aaaa Aaaa
