

## Christmas By The Phone - 1/1

Interprété par Good Charlotte.

Christmas by the phone  
christmas by the phone  
Another year,  
Another tree  
But this year you won't be with me  
It don't feel much like Christmas  
We used to watch the same old shows  
Sing Social D on the radio  
But it don't feel much like Christmas  
This used to be my favorite holiday  
My Christmas eve is filled with dreams but you chased them all away

Why did you leave me for Christmas  
You left me lonely it's true  
Could you have waited til New Year's  
At least the year would be through  
And now the mistletoe's hangin  
For no reason at all

And all the presents are still wrapped  
But you don't even call

Took a walk to where we go  
There were lights and there was snow  
But it don't feel much like Christmas  
People ask me how you've been  
I fake a smile and say ok  
But I don't feel much like Christmas

You used to be my favorite holiday  
But now you've gone  
I'm all alone  
All I can say  
Why did you leave me for Christmas  
You left me lonely it's true  
Could you have waited til New Year's  
At least the year would be through  
And now the mistletoe's hangin  
For no reason at all

And all the presents are still wrapped  
But you don't even call

Waiting here alone  
Christmas by the phone  
Said I'm waiting here alone  
Spending Christmas by the phone
