

# Light up and let go - 1/1

**Interprété par Faith no more.**

The way you're holding me  
I'm gonna blow up in your face  
You know the way  
You gotta light up and let go

(I won't, I won't, I won't)  
You'd better let go  
Let go  
You better let go

You wanted flames  
But now your tears won't put out the blaze  
Before you run away  
Know that I cannot let go

(I won't, I won't, I won't)  
You'd better let go  
Let go  
You'd better leg go  
???

The way you're holding me  
I'm gonna blow up in your face  
You know the way  
You gotta light up and let go
