

I Can't Read You - 1/1

Interprété par Daniel Bedingfield.

I'm never shy but this is different
I can't explain the way I'm feeling tonight
I'm losing control of my heart
Tell me what can I do to make you happy
Nothing I ever say seems to come out right
I'm losing control of my heart

And I wish that I could be
Another better part of me
Can't hear what your thinking
Maybe if I just let go
you'd open up your heart

But I can't read you
I wish I knew what's going through your mind
Can't touch you, your heart defending I get left behind
I can't reach you
I wish I knew what's going through your mind
Can't touch you, your heart protecting I get left behind
No no no no no
No no no no no

I like you so much I'm acting stupid
I can't play the game I'm all intense and alive
I'm losing control of my heart
I'm not supposed to be this nervous
I should play my hand all cool and calm
I can't breathe
I'm losing control of my heart

And I wish that you could see
The other better parts of me
Feel this fire I'm feeling
Then you'd see me in control
And baby then you'd know

But I can't read you
I wish I knew what's going through your mind
Can't touch you, your heart defending I get left behind
I can't reach you
I wish I knew what's going through your mind
Can't touch you, your heart protecting I get left behind
No no no no no
