

# Tell Me What Do You Want Me To Do - 1/1

Interprété par Tevin Campbell.

You called me up  
And I came to see you  
You say you've been awake all night  
It hurts me deep inside  
When I see you crying  
Whatever's wrong I'll make it right  
If you understand how I feel  
ohh you should know that my love is real oh

Tell me what you want me to do  
My love is always it for you  
Tell me what you want me to do  
My love is always here for you  
So tell me what you want me to do  
Tell me girl

There were times that I didn't show it  
Just how much I care for you  
I'm so sorry  
Now don't keep saying it's too late to think it over baby  
After all that we've been through  
Girl I'm beggin you  
I'm down on my knees  
Don't walk away baby please don't leave me no

Tell me what you want me to do  
My love is always it for you  
Tell me what you want me to do  
My love is always here for you  
So tell me what you want me to do  
Tell me girl

Girl I know that we can work it out somehow  
Isn't that what love's all about  
I'm gonna be by your side  
We're gonna see it through this time  
I won't let you slip away  
Say you'll stay with me  
Cause your the finest girl  
That I've ever seen

Tell me what you want me to do  
My love is always it for you  
Tell me what you want me to do  
My love is always here for you  
So tell me what you want me to do  
Tell me girl
