Yo hit that
Would you like a drink with me?
(If you don't mind, can I talk to you if it's alright)
I want your body close to mine
(all night, while we're dancing in the moonlight)
We can spend the night in ecstasy
(kissing,touching,caressing)
You know that you don't have to leave (tonight)
Saying why didn't I go home with you tonight

Yo, in fresh from outta town
Just breezed in so I thought I'd take a look around
And found a party where the vibe was right
I'm talking maybe meet a honey
Take her home tonight,
So...shades on, top's off the whip
Taking in the sights as I cruise this trip
As I pull up to a red light
I see this pretty little shorty in my headlights

This girl looked half black and half oriental
Man this chick's got class and style
I'd like to ask her for credentials
name,address,numbers to dial
She plays tough when deep down she's gentle
It ain't hard to read the signs
This girl bangs like dre instrumentals
Well here's an acappella of mine

Chorus

Scene 2
All up in the club
Got my game tight about to tear it up
Could be a night that I won't forget
Boy I'm looking for a honey and I'm confident
I was dancing but I had to stop
When i clocked this fly girl wearing a halter top
She had her hair done, nails right
This seniorita had a booty that was so tight

She was a hot girl who looked continental
Damn,her body looked so fine
The way she spoke I saw her potential
If looks could kill then she'd do time
I don't claim to speak perfect Spanish
But i do know a few lines

Spanish - 2/2

This female's slicker than your average
And i gotta make her mine

So,quieres beber conmigo?
(if you don't mind, can I talk to you if it's alright)
Quiero sentir tu cuerpo
(all night while we're dancing in the moonlight)
Haz el amor conmigo
(kissing, touching,caressing)
Ya no me dejes solo(tonight)
Saying why didn't I go home with you...

Tonight I'm from a distance admiring
Girl you're looking so vibrant
And i dig the way you move your body
Let's get out this party
Maybe we can get naughty
Say bye,bye girlfriends
'Cos just in a minute we'll be gone if we're *Nsync

(Can we dance?)

Would you like a drink?...
...and some loving?
But leave your husband at home
Unless he want a bump on the dome
Come along, rub alongside me
Put your phone on silence, just breathe
What you're doing is right, what I'm doing is wrong
Only time I do right is when i'm doing a song
So, expect your ex to exit the area
Exterior,vex perplex by the Seeeex
What you drinking?
Drinks on me, find me on drink and I drink on me
You can ride next to me, girl it's ecstasy
Here's something for your Ex to see
It's messed up how I slide up your thigh with my right hand
You wanna ride all night then I can
Don't be shy of just one one night stand,now let's go!

Chorus
