

## Sweet Thing - 1/3

**Interprété par Blue.**

You show up  
Walking in the place like "What? What?"  
I've never seen a girl that tight  
How can anyone deny your shine?  
Spot me, chilling in the club with plan B  
Gotta make it work this time  
Second time around  
It's on tonight

What you do  
When you move  
Got me frozen to the spot  
And I can't afford to stop

Sweet thing  
You as bad as you wanna be  
Sweet thing  
It ain't never been this hard for me  
You're the brightest thing that I ever seen  
Diamonds blind ya  
You with me  
Sweet thing  
You as bad as you wanna be  
Sweet thing  
It ain't never been this hard for me  
Don't know what to do  
When you shine at me  
Diamonds blind ya  
You with me

Girl you make me wanna fall in love  
True, did you hear what I just said  
Gotta find a way inside her head  
Check this I ain't in front and  
She said she don't need a man  
But I'm gonna be the one to change her mind

What you do  
When you move  
Got me frozen to the spot  
And I can't afford to stop

Sweet thing  
You as bad as you wanna be  
Sweet thing  
It ain't never been this hard for me  
You're the brightest thing that I ever seen

Seeing you and I'm never turning back  
Don't care anymore and that's a fact  
Now you're my everything  
Since you came my way  
Straight up  
You're the only one I want  
Right here is a chance to get it on  
I want you to trust me  
I can't move when I'm around you

Sweet thing  
You as bad as you wanna be  
Sweet thing
