

Feel The Rush - 1/2

Interprété par Liberty X.

Ooh yeah, ooh yeah,
Come on, oh yeah

Your eyes have let me know
Telling me that I move you so
And you can't hide what you're feeling
So drop your thin disguise
Baby you got to realise
It's time that you start believing
So don't pretend that's nothing going on
YYou've got to give it up tonight

Tell me I've got you hypnotised
Tell me that we are synchronised
And you can't get enough
Tell me you feel the rush
Tell me you feel the energy
You and I got this chemistry
You can't get enough
Tell me you feel the rush

You must you always be
Playing those same old games with me
We both know I don't deserve it
Don't make the same mistakes
Thinking of you with a
Baby now the table is turning
And now it's time to stop playing with my heart
You've got to give it up tonight

Tell me I've got you hypnotised
Tell me that we are synchronised
And you can't get enough
Tell me you feel the rush
Tell me you feel the energy
You and I got this chemistry
You can't get enough
Tell me you feel the rush

Tell me I've got
Tell me I've got you hypnotised
Tell me that we
Tell me that we are synchronised

So don't pretend there is nothing going on
You've got to give it up tonight

Feel The Rush - 2/2

Tell me I've got you hypnotised
Na, na , na na na na
Tell me you feel the energy
Tell me you feel the rush

Tell me I've got you hypnotised
Tell me that we are synchronised
And you can't get enough
Tell me you feel the rush
Tell me you feel the energy
You and I got this chemistry
You can't get enough
Tell me you feel the rush
