

## Pie In The Sky - 1/1

**Interprété par Frank Black.**

It takes photon power  
And eight minutes of an hour  
To make it to our sun  
And I know it sound weird  
But it'll take you four years  
To make the next one

Expanding border  
That the sauce  
Of chaos

And that's an order  
That's an order

So stomp you rfeet  
And clap your hands  
Get out of your seat  
And do a little dance  
Lift up your voice  
And sing with glee  
Now listen carefully to me

Desert your quarters  
Behold the pie in the sky  
And that's an order  
That's an order
