COME AGAIN

You push yourself on me  
Force yourself on me  
Free yourself through me  
You better save yourself from me  
Everytime you want me to be  
Something I could never be  
you will have to wait and see  
Till the next time that you have to come again  
I hate myself for you I break myself for you  
I'd kill myself for you  
I'd better save myself from you  
Every time you want me to be  
Something you could never be  
Guess you'll have to wait and see  
Till the next time that you have to come again  
If you have to walk my way  
Have something to say  
Get the fuck away  
Can't take one more day  
I Cannot conform
