## TOLERATE

Its been like this forever. No more. I hate my fucking life

I don't give a fuck about all of your problems  
I could give a rats ass how you're feeling today  
Take your worldly advice and shove it straight up your ass  
Thanks for coming around to fuck up my day  
I try tolerate  
Good bye  
Take me  
Look at you I cant  
You don't see the whole picture  
Take my bed of dirt cold and empty I'll stay  
Whats the point of trying to stay above the surface  
Take my life from me help me to ease my pain
