

## Born To Die - 1/1

Interprété par LeftÖver Crack.

Born to die and you get to sit and watch yer t.v. set  
believe the lies before yer eyes credit cards & apple pies  
50 stars to blind yer eyes 13 stripes to hypnotize  
free thought is gone you'll never see yer just a pawn  
you'll die tomorrow but today yer empty dreams just fade away  
evaporate, dissolve to hate while you survive and wait  
until a lifeless fate yer stupid lives just piddle on  
you slave fer others and then your gone i just can't escape the lying  
the moment we are born we're dying and it's such an ugly sight

we have no rights  
we have no future  
no reasons why  
just born to die

yer dumb self can't appreciate the freedom in my thought  
the weak sense of autonomy when i'm drinking in C-squat  
that empty void was never filled but the dreams of others  
you helped kill you'll justify, will linger on  
but don't ya know that dreams all die the day your born

\* we have no god's  
there's only ignorant bliss  
no reasons why  
we're born to die

gone to bed, god is dead  
lies & truth are in my head  
your history, economy, society  
it isn't me, it's all on you  
reality, it's what ya do  
it's what ya make the truth in lies  
the freedom dies, the mind it numbs, the spirit breaks  
with all our rights it kills our future  
our reasons why  
we're born to die  
just born to die
