

On My Side - 1/1

Interprété par Eskobar.

If you can't stand to fall you should not stand at all if you can't be small you should not be at all why always try to be the sun up in the sky? if you are strong show me you're weak sometimes

On my side you and me girl close your eyes rest your soul don't tell me where and I won't follow you in to the night and then you're gone
