

## Damn - 1/1

**Interprété par LeAnn Rimes.**

There you go again when you  
Rub up against my skin  
I have to catch my breath  
I begin to sweat, oh  
Lips tracin' down my neck  
and it's scaring me to death  
How'd you learn to draw me to the cliff  
Just to push me off  
Just to push me off the edge

Damn I hate the way you know me and  
Damn you kill me when you hold me  
Like I'm your world, like this won't hurt  
Like a favorite curse hittin' every nerve  
Damn I'm fightin' and I'm loosin' and  
Damn you you're pullin' and I'm pushin'  
I'm wrestlin' with,  
I toss and twist  
Till finally I give in, damn

I hate bein' addicted only  
You would have predicted that  
I'd be torn and worn so thin  
You can see right through  
You can see right through my soul

Chorus

I get reckless, scraered, confused  
I feel desparate so for you  
And you know it, you know it  
You know it, yes you do

Chorus
