

Why Don't You Try Me - 1/1

If your man's got you on the run
Why don't you try me
If you wanna have an elephant (?)
Why don't you try me
If you talk more than you can bear
If your trouble's been more than you'll share
If things ain't going just right
Why don't you try me I can be tonight
Why don't you try me tonight
Why don't you try me
Why don't you try me tonight
Why don't you try me

Last night as I was trying to sleep
I heard a ragged from the room next door
And it was you and your woman having a fight
Like you've done so many nights before
I ran out of patience spread the news
It's when I heard you shout
So I jumped out of bed and I opened the door
Just as you came running out

Why don't you try me tonight
Why don't you try me
Why don't you try me tonight
Why don't you try me

You've seen a good woman out on the streets these days
And I bet all men can be hard to find
The kind of men who'd steal your heart
And caught you another cry
I ain't seeing the whole that you need
And I won't tell you how may you be free
But I'm not well I will keep trying
When I say I want you maybe now why not

Why don't you try me tonight
Why don't you try me
Why don't you try me tonight
Why don't you try me
Why don't you try me tonight
Why don't you try me
Why don't you try me tonight
Why don't you try me
