

Think About Me - 1/1

Interprété par The Goo Goo Dolls.

You take a lot of chances with your feelings
No one really knows what you feel
And fiction is the only way you're dealing
You turn your pretty head if it gets real

You take it so slowly
And your eyes look so lonely
And it's only when you think about me
Oh yeah
When you think about me
Think about me

I got head don't let me sleep
You got secret I can't keep
You see a little stranger in your mirror
The girl you never know is what you fear
You take it so slowly
And your eyes look so lonely
But it's only when you think about me

Oh yeah
When you think about me
Think about me
All you want is something I can't be
All you want from me is what you need
And I'm saying

You take it so slowly
And your eyes look so lonely
But it's only oh you, take it so slowly
Now it's only 'bout me
When you think about me
Think about me
When you think about me
Oh yeah
When you think about me
Think about me
When you think about me
