

Million Miles Away - 1/1

Interprété par The Offspring.

There was a time
Looking threw myself
Wanting to pretend
If I escaped
I could feel myself
I don't think you can
Be far and wide
But that hole inside
Never really leaves
I run away
What I really left
Left behind was me
Instead of me
To be on my way home.

A Million miles away(*2)
I can't stay
A million miles away.

Each passing day
Every passing face
Seems like such a blur
I want to be
Silently lying next to her
Just to get back
By her side is on
Thats all i need to be
I runaway
What i really left
Left behind was me
I need to be
Getting on my way home.
