

# Clowns (Can You See Me Now?) - 1/1

Interprété par Tatu.

All this weeping in the air,  
who can tell where it will fall  
through floating forests in the air  
'cross the rolling open sea.

blow a kiss I run through air.  
Leave the past find nowhere,  
Floating forests in the air  
clowns all around you.

Clowns that only let you know  
where u let your senses go.  
Clowns all around you  
it's a cross i need to bear.

All this black and cruel despair,  
this is an emergency  
Don't you hide your eyes from me,  
open them and see me now.  
Can u see me now? Can u see? Can u see me now?  
Can u see? Can u see? Can u see?  
Can u see? Can u see me now? Can u see?  
Can u see? Can u see me now?  
Can u see me now? Can u see  
clowns all around you.  
Can u see? Can u see?  
Can u see? Can u see me now?  
Floating, floating, floating, floating.

See me here in the air  
not holding on to anywhere  
But holding on so beware  
I have secrets I won't share.

See me here pushing you  
if I then deny I do  
contemplate or wish away.  
If I ask u not to stay,

clowns that only let u know  
where u let your senses go,  
Clowns all around you it's a cross I need to bear.  
All this black and cruel despair,  
This is an emergency  
don't you hide your eyes from me  
Open them and see me now.  
Can u see me now? Can u see me now? Can u see? Can u see? Can u see?
