

Polar Nights - 1/1

Interprété par Scorpions.

Down, down

That's bringing me down
The stars in the sky
Seem to fall to the ground
Time, time
I'm chasing the time
The stars in the sky
Seem to be turning round

Is that the wind in your eyes
That is soothing my mind ?
Is that the night of your eyes
That is soothing my mind ?

Round, round
My mind's whirling round
The moons in the sky
Seem to burn on the ground
Gone, gone
My nightmares are gone
The moons in the sky
Seemed to eat up the sun

Is that the wind in your eyes
That is soothing my mind ?
Is that the night in your eyes
That is soothing my mind ?
Back from polar nights

I was down
I was out
The nights at the pole've been
So cold without you !
I was down
I was out
The pole-star was bringing me
Back home to you

Is that the wind in your eyes
That is soothing my mind ?
Is that the night in your eyes
That is soothing my mind ?
