

## Voices - 1/1

**Interprété par Disturbed.**

So, Are you breathing?  
So, do you breathe?

Wake up are you alive  
Will you listen to me  
I'm gonna talk about some freaky shit  
Someone is gonna die when you listen  
Let the living die, let the living die

Are you breathing now  
Do the wicked see you  
You still breathing  
You're making me known  
Are you breathing now  
Do the wicked see you  
You still breathing

So, what's up  
I wonder why do you listen to me  
I'm gonna make you do some freaky shit now  
Insane, your gonna die when you listen to me  
Let the living die, let the living die, say

So

Save me God

I can hear the voice but I don't want to listen  
Strap me down and tell me I'll be all right  
I can feel the subliminal need to be one  
with the voice and make everything go  
I can hear the voice but I don't want to listen  
Strap me down and tell me I'll be all right  
I can feel the subliminal need to be one with  
the voice and make  
Everything all right
