

Fear - 1/1

Interprété par Disturbed.

Reject

Are you no one

Feel you nothing

You know I'll bet you think

You have a good reason to be living

In the limelight of the fortunate ones

you're too weakened by the poison

That they feed you in the living lie

They don't believe you

Carr to no one

Trust in nothing

Little impotent one

I don't want to be innocent, you know

I don't want to let them hypnotize me

Punk ass, are you listening

Can you hear me or are you deaf and dumb to my language

Do the real words seem to hurt you

Well put em' up motherfcker

You'll feel it

When I stamp it on your forehead

So you will never forget

That you're a reject

And you're a no one

And you're nothing

Little impotent one

Fear awaken

Go with it now

And let it overcome you

Fear awaken

Your mind is racing

I don't understand why you don't like me

Why don't you like me?

Am I so diffrent from you

Now does it scare you that I'm able to discern

What to love and what to burn

I'll add your fuel to the fire now

Stand back, brother take your hand back

Leave it and I might crack

More than a smile or two you see

Don't judge what you don't understand

You can't deny what has been given to me
