

Wild Child - 1/1

Interprété par Scorpions.

Don't hear the phone that rings
I know the fever's comin'
God knows what life will bring
This Sunday morning, Sunday morning without a warning

Don't hear the neighbour scream
He thinks my house is burning
Life is good to me
This Sunday morning

She's a wild child
And her love turns a man insane
She's a wild child
And the love she makes rocks the mind off my brain

Don't hear the backdoor crack
Don't see the cops are comin' back
It's burnin' in my bed
This Sunday morning

She's a wild child
And her love turns a man insane
She's a wild child
And the love she makes rocks the mind off my brain

She's on fire
She's on fire
She's on fire

She's a wild child
And her love turns a man insane
She's a wild child
And the love she makes rocks the mind off my brain

She's a wild child
And her love turns a man insane
She's a wild child
And the love she makes rocks the mind off my brain

She's a wild child
She's a wild child

She's a wild child
And her love turns a man insane
She's a wild child
And the love she makes rocks the mind off my brain
