Bigger Stronger - 1/1

Interprété par Coldplay.

I wanna be bigger, stronger Drive a faster car To take me anywhere in seconds To take me anywhere I wanna go And drive around a faster car

I will settle for nothing less I will settle for nothing less

I wanna be bigger, stronger Drive a faster car At the touch of a button I can go anywhere I wanna go And drive around my faster car

I will settle for nothing less I will settle for nothing less

I think I wanna change my attitude I think I wanna change my oxygen I think I wanna change my air, my atmosphere I wanna be strong

I wanna be bigger, stronger Drive a faster car To take me anywhere in seconds To take me anywhere I wanna go And drive around my faster car

I will settle for nothing less I will settle for nothing less

I think I need to change my attitude I think I wanna change my oxygen I think I wanna change my air, my atmosphere I wanna be strong

Bigger and better Bigger and better Bigger and better Bigger and better

Bigger, stronger Drive a faster car At the touch of a button I can go anywhere I wanna go
