

## Do It For Our Country - 1/1

Interprété par Grease 2.

America is calling, let's care enough to give our very best.  
For if we give our very best,  
I know that we will more than pass the test.  
If I could have three wishes, I'd wish that you'd live free,  
I'd wish for amber waves of grain from sea to shining sea.

Yeah, let's do it for our country, the red, white, and the blue.  
It's Uncle Sam who's asking, so your mother will approve.  
Tomorrow I'll be fighting, and I'll win this war for you.  
Let's do it for our country, our country wants us to.

Bullets are exploding, they'll soon be at the door,  
Give something to America you never gave before.  
Yeah, let's do it for our country, the red, white, and the blue,  
If the President were standin' here, I'm sure he would approve.  
I'll be a mighty soldier before this night is through.  
Let's do it for our country, our country wants us to.

(Spoken)

Just think about it -- it would be like as if we were doing it for the Statue of Liberty, or the Grand Canyon, or the New York Yankees... it would be like as if we were doing it for... Disneyland!

Yeah, let's do it for our country, the red, white, and the blue,  
It's not a lot to ask of us, our parents will approve.  
Tomorrow I'll be fighting, and I'll win this war for you.  
Let's do it for our country, (spoken) we owe it to our country.  
Let's do it for our country, our country wants us to.
