

Ready For You - 1/1

Interprété par Hoobastank.

Go on
make me feel it's useless
when in fact it's you that
needs to have me near
So now
keep me at safe distance
and with a little persistence
we'll make it crystal clear

And I'll be around
only if you want me to
be there by your side
I'm ready for you
so don't be afraid
cause I know what you're going through
so when you think it's time
I'm ready for you

Now you
seem to be content with
a one sided freindship
you have got to change
Slow down
so I can smell the roses
but the road you've chosen is twisted and unclear

I'll be around
only if you want me to
be there by your side
I'm ready for you
And I'll be around
I know what you're going through
So when you think it's time
I'm ready for you
I'm ready for you

I'll be around
only if you want me to
be there by your side
I'm ready for you
And I'll be around
I know what you're going through
So when you think it's time
I'm ready for you
I'm ready for you
