Interprété par Christina Milian.

Verse 1

Baby every now and then you disappear from this earth
And where you been and where you go I don't know
But when you didn't up for till 2 I'm like where was you
Late again (you) didn't call on a cell that I bought

Chorus

I figured out when you open your mouth
First you start forgettin' then your palms start sweatin'
Then you twitch, twitch
You can't disguise when you're caught in a lie
You always reply with a twitch, twitch

Verse 2

It's true your body language told on you
Tell me what'd you do
First you lie, start to stutter
What's your problem , I'm no your mother
you're guilty and one day you gonna feel me
but you should know it's not right
it's not okay I wasn't born yesterday

Bridge

Speak up, I can't hear you
What did you say boy wussup?
You so crazy acting this way, is there something
In your eyes cuz you twitch when you look at mine
