

Morphine & Chocolate - 1/1

Interprété par 4 Non Blondes.

Substitute my gloom with happiness
Substitute my sickness with health
Substitute my enemies with real good friends
Morphine & Chocolate are my
Substitute, substitutes
Morphine & Chocolate can bring me up
Can warm my heart whenever I want it
And every once in a while when I stop and think
Morphine & Chocolate are my
Substitute, substitutes
And you can say " Hey, we've really come a long way "
And you say " Hey, it can only be this way "
You might be careful, It really hurts when it's real
You might be careful, It really hurts when it's real
You'll go down, down, down, down, ooh !
Set the alarm clock, baby
Don't you miss the sun ?
I'm feeling really warm hearted baby
Don't you know I'm feeling like someone
I'm fearing for my life again and I am
Fearing for my heart
Morphine & Chocolate could never
Substitute my art !
And that's real love baby X3
