

It's Been A Summer - 1/1

Interprété par New Found Glory.

i'm cracked from my head down to my spine
ready to self-destruct at any time
and i'm trying to convince myself
that the way i feel is all i have
it could take a lifetime
to realize that your alright
but you said
i know when you were gone that
its been a summer
its burning up in here
even though the bed is cold on your side
i'd rather die than spend this night here without you
now its burning up in here
even though the bed is cold on your side
i'd rather die than spend this night here without you (without you)
i would try to fix these flaws of mine
if i could just see you for one more time
and i'm trying to convince myself
that the way i feel is all i have
i don't believe in sure things
there's pain in what the truth brings
but you said
i know that when you were gone that
its been a summer
it burning up in here
even though the bed is cold on your side
i'd rather die than spend this night here without you
now its burning up in here
even though the bed is cold on your side
i'd rather die than spend this night here without you (without you)
i'll be the first one to know
if its wrong for me to just let it go
i'll be the laughing stock of all time
person most likely to find
deciding if its me (???)
i know that when you were gone that
its been a summer
it burning up in here
even though the bed is cold on your side
i'd rather die than spend this night here without you
now its burning up in here
even though the bed is cold on your side
i'd rather die than spend this night here without you (without you)
