Siren - 1/1

Interprété par Majandra Delfino.

Why do you decide to run these circles bruised around my thighs ?
Sleepess nights the bleeding clots.Why your eyes encapture my thoughts ?
Staring at, smirking at my ways.Lying down I whisper you can stay.
Why can't everything just go my way.Caught in this trap you sneer as I fall,
My list of desires, your company is all.
You come as a siren who lures me to betray,
I came as a temptress unaware that I'd be losing at my game.
Why do you conclude that you can look right through my eyes
Expecting to read what I'm feeling here.Claiming beauty left your dear.
This Cliché's what drives my force to you.It's the element breaking us too.
If things were up to me I'd follow through.
Caught in this trap you sneer as I fall,My list of desires, you company is all.
You come as a siren who lures me to betray,
I came as a temptress unaware that I'd be losing at my game.
Why do I react this way ? Why is it that I swoon to pay you ?
Back with this vendetta out.I hate you for the pain, the doubt.
Never is our day of fucking bliss,This beatle juice comes jaded for my kiss.
Little suicides defend the pain.
The ghost of you that follows me is held to blame.
If I had you, I would not complain.Caught in this trap you sneer as I fall,
My list of desires, you company is all.
You come as a siren who lures me to betray,
I came as a temptress unaware that I'd be losing at my game.
