

## Sway - 1/1

**Interprété par Vanessa Carlton.**

My heart, your hands, gentle my friend  
break me neatly, numb me sweetly

Say you would, say you could  
say you'd come and stop the rain  
say you'd try and hold me tight  
and you just give me away  
make me high on lullabies  
a melody for me to sway  
say you would, say you could  
and you don't do anything

Come down heavy, try and steady  
precious ladies, love you, love me...

[chorus]

Hold my head up to the lies that you feed me  
I'll fall under the spell you cast as you let me down

Say you would, say you could  
say you'd come and stop the rain  
say you'd try and hold me tight  
and you just give me away  
make me high on lullabies  
a melody for me to sway  
make me high on lullabies a melody for me to sway

[chorus]

Say you'd come and stop the rain...
