

## Posthuman - 1/1

**Interprété par Marilyn Manson.**

She's got eyes like zaprunder  
And a mouth like heroin  
She wants me to be  
Perfect like Kennedy  
This isn't god, this isn't god  
God is just a statistic,  
God is just a statistic  
Say,  
Show me the dead stars,  
All of them sing  
This is a orion  
Religious and clean  
God is a number you cannot count to  
You are posthuman and hardwired  
She's pilgrim and pagan  
Softworn and so-cial  
In all of her dreams  
She's a saint like Jackie-O  
This isn't god, this isn't god  
God is just a statistic,  
God is just a statistic  
Say, show me the dead stars,  
All of them sing  
This is a orion  
Religious and clean  
(Coma White):  
All that glitters is cold, all that glitters is cold
