

My Heart Still Beats - 1/1

Interprété par Destiny's Child.

You're holding me, I close my eyes
You're whispering, I start to cry
You feel so good, so beautiful
For as long as you live, don't let me go

- Chorus -

Just hold me, touch me, feel me
As long as you love me, reach for me and need me
If you could trust me, and teach me, never let go of me
Because you have for me my heart still beats

Looking in these eyes, the eyes of love
I hold your face, and I see the sun
And I taste your kiss, you touch my soul
I'm feeling things I 've never felt before

- Chorus -

I'm feeling what they call pure love
I never knew feelings like this could exist inside of me
I'm soaring, emotions exploding
I don't wanna live another day if you're not here with me

- Chorus -
