[Hitman]

When darkness be closin in
I'm motivated, with the howlin wind
with a list of chosen men, frozen in sin
Knowin that your end is beginnin
Swift silent and deadly
There's no defendin my plots, I know your every movement
For six months I watch, coulda gotchu at your baby's mother's house
Even at your down-low weed spot
But the backdrop, wasn't flattering enough
I didn't want people gathering and stuff []
