

Helping hand - 1/1

Interprété par Superbus.

Run, run, run away, you're afraid of me you say
That I should go to see a doctor
You found found found out that I was crazy
And now you're so afraid of me
But you gotta understand that I need a helping hand
Somebody who takes care of me
You gotta understand that I need a helping hand
Somebody who takes care of me
I'm jump', jump', jump', jumping everywhere
I'm jump', jump', jump', jumping in the air
'Cause I know that I'm crazy, I know that I'm lazy
I really know everything about me
I need a doctor, I need a sister, need somebody
Who can take care of me
But you gotta understand that I need a helping hand
Somebody who takes care of me
You gotta understand that I need a helping hand
Somebody who takes care of me
Get up, get up, take my hand, bring me back right to the band
Moving, you make me dance and you make me sing loud,
Fly high, leave the floor, I'm getting higher
You gotta understand that I need a helping hand
Somebody who takes care of me
