

# Unstoppable - 1/1

**Interprété par The Calling.**

Come and lay right on my bed, sit and drink some wine  
I'll try not to make you cry  
And if you get inside my head, then you'd understand  
Then you'd understand me  
Why I've felt so alone, why I kept myself from love  
And you became my favorite drug  
So let me take you right now and swallow you down,  
I need you inside

Chorus:

If we had this night together  
If we had a moment to ourselves  
If we had this right together, then we'd be unstoppable

Do you think that this is right, or is it really wrong  
I know that this is what we've been wanting  
And all this burning in my soul, it fills up to my throat  
It fills up 'till my heart is breaking

Chorus

Now, we can both learn  
Somehow, you'll see it's all we have  
Love, it keeps us together  
And I need love

When I wake up without you, knowing you're not there  
I'm only feeling half as good  
Well I'm gonna find a way  
To wrap you in my arms, you make me feel alive

Chorus ( x2 )
