

I surrender - 1/2

Interprété par Sita.

A cooling breeze
Runs through my hair makes me think of you
You're always there
All around me everywhere

It's in the air
Your every kiss like a summer's day
I think you know
You take my breath away and so

I surrender
to the power of your love
I fall back and let you take me there
to the place that I've been
dreaming of
I surrender
When you look into my eyes
I give in and let you take me there
To a place where there's just you and I

It's in your eyes
It's in your touch every
word you speak
My wish comes true
Every second I'm with you

So easily
You stole my heart now it's yours to keep
I think you know
You take my breath away and so

I surrender
to the power of your love
I fall back and let you take me there
to the place that i've been
dreaming of
I surrender
When you look into my eyes
I give in anf let you take me there
To a place where there's just you and i

Holding on to something heaven sent
I don't never want this love to end
I don't never want this love to end

Holding on to something heaven sent
I don't never want this love to end

I surrender - 2/2

I don't never want this love to end

I surrender

to the power of your love

I fall back and let you take me there

to the place that I've been

dreaming of

I surrender

When you look into my eyes

I give in and let you take me there

To a place where there's just you and I
