

## Love Will Always Win - 1/2

**Interprété par Faith Hill.**

Hold me like there's no tomorrow

There can be no sorrow

Right here where we stand

Living only for a moment

All I ever wanted

Is right here in my hands

Some will say

That's we're sure to fall

Try to build their walls

Between us

Chorus

No way over it

No way around it

If we want it we have to go through it

Fight for love

And the world tries to break us down

But the world will bend

And the fight will end

Love will always win

Hold on 'til we see tomorrow

## Love Will Always Win - 2/2

There is time to borrow

'Til we own our own

Walk on and our hearts will lead us

But our hearts will need us

To be steady and strong

So we can stand

And face the fire

Burning higher

Surrounding us

Chorus

No way over it

No way around it

If we want it we have to go through it

Fight for love

And the world tries to break us down

But the world will bend

And the fight will end

The world will bend

And the fight will end

Love will always win
